

### **Virginia Tech: Center for Technology, Security, and Policy - Occasional Paper Series**

The Occasional Paper Series is designed to disseminate work performed by CTSP faculty members and affiliates, scholars, and subject matter experts on issues related to CTSP's core areas of interest: The Complex Threat Environment, Technology in Support of Public Policy Decision Making, Security in Complex Environments, and Strategy, Planning and Leadership. The purpose of the Series is:

To disseminate research quickly in order to generate comments and suggestions for revision or improvements.

To present the contributions of CTSP faculty and affiliates to conferences, workshops and seminars.

To stimulate discussion by offering the opinions of subject matter experts on topical matters relating to CTSP's core areas of interest.

To disseminate exemplary reports which demonstrate new or effective approaches to national security and homeland security challenges.

To make available instructional teaching aides, models, methodology, etc. for evaluation and comment.

CTSP's Occasional Paper Series is intended to reach a wide audience, including policy-makers, national security and homeland security practitioners, financial analysts, academics, the media and the interested general public. Occasional Papers will be published as received. They should follow publishing available guidelines at [www.ctsp.vt.edu/publications/index.html](http://www.ctsp.vt.edu/publications/index.html).

Multiple copies of an Occasional Paper can be ordered by contacting [ctsp@vt.edu](mailto:ctsp@vt.edu).

*Please keep in mind that The Occasional Papers Series provides a forum for people to express opinions and offer conclusions from various perspectives and points of view. Occasional papers are published in the name of the author(s) and the views contained in them do not necessarily reflect those of the CTSP.*
